EDUCATION

MS, Business Analytics | UC Irvine — Paul Merage School of Business (3.6 GPA) Expected Jun 2026
Coursework: Statistics for Data Science, Python, R, SQL, Big Data, Predictive Analytics, Marketing Analytics, Management Science, Consulting Fundamentals, Supply Chain Analytics

MBA — Marketing & Business Analytics | NMIMS, Mumbai (3 GPA) May 2023

BE, Computer Science | University of Technology, Burdwan Aug 2020

Certification: Google Analytics Certificate, Google (Nov 2025)

PROFESSIONAL EXPERIENCE

HSBC | Senior Analyst — Pune, India May 2023 – Jun 2024

- Analyzed a monthly pipeline of 200+ CRM leads using data-driven segmentation to prioritize high-conversion prospects, improving follow-up efficiency by 20%; maintained weekly KPI dashboards and reported performance trends to management.
- Consistently met or exceeded \$43K+ in combined annual revenue targets in 10 of 13 months by optimizing data-driven outreach strategies across a 12-member team.

Obagi Medical | Project Manager, Analytics Capstone Feb 2026 – June 2026

- Measured the revenue impact of a skincare brand's competitive program across 580K+ rows of sales data; found a statistically significant lift ranging from +11% to +25%, translating to multimillion dollar annualized impact.
- Built two predictive models to identify which accounts were most likely to join the program and generate the highest returns; delivered findings as a Tableau dashboard with a live ROI simulator and a prioritized list of target accounts for the client sales team

ACADEMIC PROJECTS AND LEADERSHIP

Airbnb Pricing Analytics | Demand Modeling | UC Irvine Nov 2025

- Scraped and cleaned 13,500+ LA listings using Python (BeautifulSoup, pandas); engineered 84 features across location, property type, amenities, and host characteristics and built a multiple linear regression model ($R^2=0.55$ and RMSE=\$66).
- Identified neighborhood, room type, and amenity richness as the strongest price drivers; visualized findings in a Tableau dashboard to help hosts benchmark competitively and optimize revenue strategy.

ZARA | Sales Performance & Customer Segmentation | UC Irvine Dec 2025

- Applied multiple linear regression and K-Means clustering in Python on 1,800+ product dataset; identified store placement as the strongest sales driver and translated cluster-based findings into a merchandising strategy recommendation for product placement optimization.

EY Open Data Science Challenge 2026 | Independent March 2026

- Engineered climate features from satellite and geospatial datasets (9,300+ training records across South African river systems) and built a spatial matching pipeline using KD-tree nearest-neighbour assignment; contributed to water quality prediction models for EY's 2026 global AI & Data Challenge

Marcell Marketing Club | Digital Marketing Head- NMIMS March 2022 – March 2023

- Led a team of 13 to plan and execute club events end-to-end, overseeing strategy, creative direction, and cross-team coordination to deliver consistently on-brand experiences across the academic year

TECHNICAL SKILLS

- Programming & Analytics:** Python (pandas, NumPy, scikit-learn, BeautifulSoup, Matplotlib, Seaborn), MongoDB, R, SQL, Pyomo, Gurobi
- Visualization & BI:** Tableau, Power BI, Excel (Advanced: Pivot Tables, VLOOKUP, Macros), Google Analytics
- Methods:** Regression Analysis, K-Means Clustering, Predictive Modeling, Decision Trees, Random Forest, A/B Testing, Statistical Analysis, Feature Engineering, Data Wrangling, Optimization Modeling
- Tools & Platforms:** GitHub, Snowflake, CRM Systems, Jupyter Notebook, Google Colab, VS Code

ADDITIONAL

Languages: English (Fluent), Bengali (Native), Hindi (Professional), German (Beginner)
